Progress of the Mormon Treason. A letter from Salt Lake city gives the following account of proceedings there that indicate the designs of Mormons to create an Indian out, break as diversion in favor of their contemplated rebellion.

Arapeen, the chief of the Pah Utah Indians, has been in the city recently. While here he was very assiduous in en deavers to ascertain what the Mormons were going to fight the Americans for He said they had been urging him to join them in such a war, but declared that he had refused absolutely to have anything to do with it. There is food for medi tation and conjec ure n the e statements of the friendly chief, taken in connection with movements known to be contem plated by the Mormons who seek his alliance. Brigham Young, Heber Kimball, and other heads of the church propose to leave here in April for a trip north. They take with them two or three hundred men, the names of a large list of whom were read of publicly in the Tabernacle on Sunday, the 21st ult. Where they are going or with what design is a profound mystery. Some say that they are about to leave the country entirely and settle in the British Possessions; but I can see no reason to put any faith in so improbable a rumor. The British Possessions present no such eligible location as that the Mormons now occupy, and their removal would involve an immense expenditure and loss of property, such as they could not hope for the toleration and indifference at the hands of the establish there a new "stake". Still an- mal. other suggestion is, that Brigham is going on a tour among the Northern In-

iem. My own impressions favor the fatter view, although it is net improbable that the founding of a colony in Bitter Root Valley is a part of the programme. The only clue we have to their proposed route is a letter from Brigham shown by Arapeen, in which the former invites the Chief to accompany him on his tour stating that he will pass through the country of the Bonacks, the Nez Perces and the Flatheads. There has been a great deal of activity

lately in that mystery of mysteries, the "Endowment House", and hundred of the new converts have passed through the degrees, and taken the fearful Mormon oath in which the swear fealty to the Prophet and enternal enmity to the Government of the United States. As a large proportion of these new converts are ignorant, proselyted foreigners just arrived from the Old World, you may suppose that this oath is sworn with a will, and without mental reservation .-The ceremony of initiation is generally concluded by the sealing of one or more women to every male; and on one day not long since fifty males were thus taken as spirituals. - Unappropriated women are becoming scarce in the Territory, and the polygamous monsters of the Mormon church are beginning to compel the merest children to their wicked embraces. It was only a few days ago that two little girls between 10 and 11 years of age, were sealed to old men. It is a very common occurence for girls of 14 years to be taken as wives. One object seems to be to get these children into the horrible system of polygamy before they are old enough to think for themselves, or the natural delicacy of the

The London Advertiser states a fact which shows that men occupying prominent positions are not above the need of the most elementary Sunday School instruction. It says that a candidate 'or parhament at the recent election, in the course of an electioneering speech, was asked -- "What do you think of the Decalogue?" Confounded by the inquiry, he turned to a friend, and asked in a whisper,-"What does that mean?", The friend, whose acquaintance with divinity was on a par with his own, replied by suggesting that it meant flogging in the army. Whereupon the candidate declared; "Intirely disapprove of the Decalogue, and will never rest till I see it abolished." The gentlemen was elected, and is now a member of the Parliament. The Advertiser ad is: "We piedge our- 2 CASE fine Fiorida Leaf at retail. J. S. McCRACKEN. selves for the perfect accuracy of this statement."

EARLY MARRIAGES. - We are rather famous for early marriages, but the Scotch paper gives an evidence of a grandmother

at twenty-nine: A woman who was last week brought before the magistrates of Wigan, for an assult committed on a neighbor, affords a striking instance of recklessly early marriages. She is the wife of Patrick Casey, a tailor. They were married before she attained the age of fourteen years, and was a mother at the age of fourteen years and seven months. Since that time she had eleven other children .--Strange to sav, the eldest girl, who was fifteen years old on Wednesday week. is the mother of two children, the oldest of whom is nearly two years of age, she having married earlier in life than her mother. Mrs. Casey is, therefore at the age of twenty-nine years, the mother of twelve and the grandmother of two child-

This is a purely vegetable compound, prepared of strictly scientific principles, after the manner of the celebrated Holiand Professor, Berhave. Because of its creat success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of arient spirits, or other forms of dis-sipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quicken ing every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.
